ENow Presents at Microsoft UK Headquarters
“Migrate 2010: Strategies for Upgrading Exchange & SharePoint” Seminar

[Reading, United Kingdom – Tuesday, 23 June 2010]

[ENow](#), a Microsoft Gold Certified Partner specializing in Microsoft infrastructure consulting and the development of software to simplify systems management, had their Principal Architect Jay Paul Gundotra as the featured speaker at the "Migrate 2010: Strategies for Upgrading Exchange & SharePoint" Seminar. The event was held at Microsoft UK headquarters and was jointly hosted by Essential computing.

Mr. Gundotra's presentations highlighted why companies were adopting Microsoft's latest messaging platform, Exchange 2010, so quickly and relayed lessons learned from ENow's experiences helping companies make this transition. In addition, he discussed ENow's proven methodology for ensuring a smooth and seamless migration project.

"We are grateful to have had Jay's input on migration strategies," commented Keith Quinn, Managing Director of Essential Computing. "ENow's extensive experience in migrating companies to Exchange 2010 meant Jay's insight and knowledge of best practices for Exchange migrations greatly benefited our audience."

Jay has been a regular speaker at Microsoft events, including the Microsoft Exchange conference. He has over 15 years experience in network computing, and has designed, deployed, administered, and consulted on Microsoft Exchange server since version 4.0. This experience helps shape ENow's award winning Exchange management tool, [Mailscape](#), which assists companies with their Exchange migrations.
